Chris Otokito  
*Co-Founder of UTCAI*

---

United To Change And Inspire (UTCAI) is an organisation that works to bring people together. It is united in strength to overcome injustice and prejudice and champion equality for all. It sees itself as a bridge to advise, consolidate and give a stronger voice to marginalised groups. It aims to change past narratives and bring forth fairness and equal opportunities in the education, business and justice system, as well as the corporate, creative and sports industries.

## What inspires you to do what you do?

My family inspires me and consists of my 3 bambinos, my lady of 18 years, my parents, three siblings and any positive being in my network. Life is an amazing blessing!

## What do you want to see change?

The world is filled with far too many bright people for us to still have the problems we have today.

We have to authentically want to make spaces for and align with forces that enable the existence of the creatives, intellectuals, heart-led, emotionally intelligent and courageous beings who are not afraid to see the new world that's on the horizon. We need to unify and share our varieties of wealth and technology and be conduits of positive change primarily within ourselves and in then others.

We have to be confident in our own abilities to do the right thing, to always retain freedom and uphold our rights to integrity.

That no amount of money or kind of relationships compromise our abilities to make decisions that are just money based, but instead are moral, ethical, and right. This can hopefully enable us to evolve morally, spiritually, emotionally, mentally, ethically, physically, technologically, environmentally and financially.

## One lesson for people thinking about starting their own enterprise / organisation?

“Follow your heart, it always seems impossible till its done - and a key to success is to start before you're ready”

“Always deliver more than expected and chase the vision, not the money, the money will end up following you.”
